

ABOUT RAPID7

Rapid7 is the leading provider of unified vulnerability management, compliance, and penetration testing solutions, delivering actionable intelligence about an organization's entire IT environment. Rapid7 offers the only integrated threat management solution that enables organizations to implement and maintain best practices and optimize their network security, Web application security and database security strategies.

451 GROUP IMPACT BRIEF

"Rapid7 is looking beyond compliance combining its Metasploit database of exploits with vulnerability data to give both security and operations a better understanding of risk."
